

Role Based Flow

How PMWDS adapts its navigation, visible data and available actions to the user's role — walked through screen by screen.

Note: roles in PMWDS are dynamic and configurable. The four below are used here to simulate and demonstrate the flow.

Admin

Manager

DepartmentHead

TeamMember

ACCESS MATRIX

What each role can reach

MODULE	Admin	Manager	DepartmentHead	TeamMember
Dashboard	Available	Available	Available	Available
Projects	Available	Available	Available	Available
Project overview	Available	Available	Available	Available
Milestones	Available	Available	Available	Available
Tasks & subtasks	Available	Available	Available	Available
Documents	Available	Available	Available	Available
User administration	Available	Available	Available	Restricted
Departments	Available	Available	Available	Restricted
Profiles & skills	Available	Available	Available	Restricted
Roles & permissions	Available	Restricted	Restricted	Restricted
Activity logs	Available	Restricted	Available	Restricted
Reports	Available	Restricted	Restricted	Restricted
AI insights	Available	Restricted	Restricted	Restricted
Notifications	Available	Available	Available	Available

Scoping is enforced server-side. 'Restricted' means the API returns no data and the route guard refuses to render.

Roles are configuration, not code. These four simulate the flow; any number of custom roles can be defined and granted.

ROLE 1 OF 4

Admin

Runs the whole organization — delivery, people and governance.

Relevant screens in this flow

Every module opens from here. The Admin sees the same dashboard as everyone else — the difference is that nothing in it is switched off.

New Project opens a four-step wizard. Step one captures the name, owning department, description, priority, budget in lakhs and the delivery window.

Project Details
Step 1 of 4 • required

PROJECT NAME *

Construction of Government Residential Colony

PRIMARY DEPARTMENT (CREATOR)

Public Works Department

DESCRIPTION

Development of a government residential colony in Lucknow including land acquisition, planning, construction of residential units, utilities, roads, landscaping, and quality handover.

PRIORITY

Critical

BUDGET (₹ IN LAKHS)

₹ 18500

Enter amount in lakhs (1 lakh = ₹1,00,000) • ₹1,85,00,00,000

START DATE *

07/01/2026

END DATE *

12/31/2027

Next →

Milestones break the programme into trackable phases. Each needs a name, description and due date; at least one is required.

The screenshot shows a modal window for setting up milestones. At the top, a progress bar indicates four steps: PROJECT DETAILS, MILESTONES (current step), ASSIGN DEPARTMENTS, and DEPENDENCIES. The MILESTONES section is titled 'Milestones' and shows 'Step 2 of 4' with a red asterisk indicating a required step. A message states 'At least one milestone is required *'. Below this, there are four milestone entries, each with a flag icon, a title, a description, and a due date:

- Land Acquisition & Site Readiness**
Land ownership verification, physical su... Due: 7/31/2026
- Master Planning & Design**
Master layout preparation, building desi... Due: 8/31/2026
- Statutory Approvals**
Building plan approval, development per... Due: 9/30/2026
- Site Preparation**
Temporary site office, site clearance an... Due: 11/20/2026

Below the list is a dashed box with a '+ Add Milestone' button. At the bottom of the modal are 'Back' and 'Next' buttons.

Every milestone is assigned an owning department, which is what later drives workload and capacity reporting.

PROJECT DETAILS

MILESTONES

ADMIN

The widest task surface in the product — create, assign, escalate and decompose work down to subtasks.

The screenshot displays the PMWDS (Project Management Work Desk) interface. On the left is a sidebar with navigation options: Dashboard, Projects (selected), Notifications, PROJECTS (with a dropdown arrow), TEAM (Departments, Users, Profiles), TOOLS (Reports, AI Insights), and SYSTEM (Roles, Activity Logs). The main header shows the date 'FRI, OCT 2' and the title 'Tasks · Construction of Government Residential Colony'. Action buttons for 'New milestone', 'New task', and 'Dependencies' are in the top right. Below the header, a breadcrumb trail includes 'Back to Projects', 'Overview', 'Milestones', 'Tasks' (active), and 'Documents'. The main content area features a project card for 'Construction of Government Residential Colony' (InProgress, 2% complete). This card lists details: 'Development of a government residential colony in Lucknow including land acquisition, planning, construction of residential units, utilities, roads, landscaping, and quality handover.', 'Critical' status, budget '₹185 Cr', department 'Public Works Department', and manager 'Rajesh Verma'. It also shows 13 flags, 171 documents, and icons for view, edit, and delete. Below this is a section for 'Land Acquisition & Site Readiness' (InProgress, 30% complete, due Jul 31, 2026, 3 tasks). This section contains a Kanban board with columns: 'Not Started' (1 task), 'In Progress' (2 tasks), 'Completed' (0 tasks), 'Delayed' (0 tasks), 'On Hold' (0 tasks), and 'Cancelled' (0 tasks). The 'In Progress' column has two task cards: 'Land Handover' (0% progress, Critical) and 'Physical Survey' (27.5% progress, High). The 'Physical Survey' card also shows a 'Land Ownership Verification' subtask (65% progress, Critical). Each task card includes a 'SUBTASKS' count and a 'Ha...' or 'Upl...' link. The bottom left of the interface shows the user 'Priya Menon' with the role 'ADMIN' and a profile icon.

Documents and utilization certificates sit together: the register of project files, and the proof that released funds were used as intended.

The screenshot displays the PMWDS (Project Management and Work Document System) interface. On the left is a sidebar with navigation options: Dashboard, Projects (selected), Notifications, PROJECTS (dropdown), TEAM (Departments, Users, Profiles), TOOLS (Reports, AI Insights), and SYSTEM (Roles, Activity Logs). The main header shows the date 'FRI, OCT 2' and the page title 'Documents · Construction of Government Residential Colony'. Below the header is a breadcrumb trail: 'Back to Projects' > 'Overview' > 'Milestones' > 'Tasks' > 'Documents' (active). The 'Documents' section includes an 'Upload Document' button and a 'UTILIZATION CERTIFICATES' section with a '+ Submit UC' button. A message states 'No utilization certificates yet' with a subtext 'Raise one to prove the funds released to this project were used as intended.' Below this, a document entry is shown: 'praposal grievance redressal system.docx' (54.6 KB · Oct 2, 2026) with a download icon. The bottom of the sidebar shows the user profile for 'Priya Menon' (ADMIN).
